DETAILED ACTION

1. The indicated allowability of claims 1-2 is withdrawn in view of the newly discovered reference(s) to U. S. Publication No.: 20050041816. Rejections based on the newly cited reference(s) follow.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-2 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-2 of copending Application No., Pub. No. 20050041816. Although the conflicting claims are not identical, they are not patentably distinct from each other because each is drawn to a headphone or earphone device with rear speakers and receives sound from front and subwoofer speakers, wherein the signal received by the rear speakers are processed via head related transfer function (HRTF).

Regarding claim 1, Pub. No. 20050041816 discloses in claim 1 a method for providing a headphone-like or earphone-like device, therein, which reads on the method of providing for a headphone-like or earphone-like device.

Regarding claim 2, Pub. No. 20050041816 discloses in claim 2 a delay time, therein, which reads on a delay time.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

Applicant's arguments with respect to claims 1-2 have been considered but are moot in view of the new ground(s) of rejection.

The applicant made remarks in respect to the amended changes to overcome the 112 2nd paragraph rejection of claims 1-2 and cancellation of claims 3-7 to overcome the previous double patenting rejection. However, another double patenting rejection is provided in view of the current claims of continuity application no. 10953819.
